

**A FULL RANGE OF REFRIGERATOR CABINETS 42-80-130 LITRES**

REFRIGERATED CABINET - **42 LITRES**  
L. 14,96 in - P. 13,9 in - H 20 in

A range of upright front loading refrigerators designed specifically for the marine market incorporating the high capacity box type FRIGOBOAT evaporator.

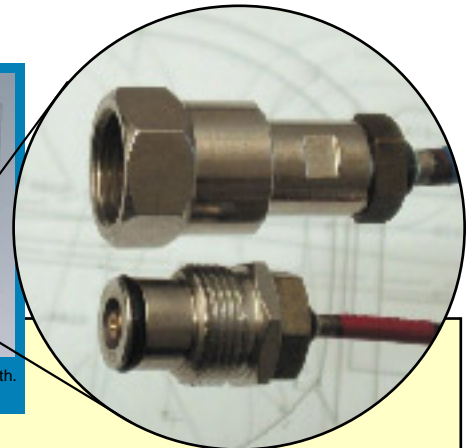

These fridges utilise the frigomatic compressors which can be specified with either air cooling, water cooling or keel cooling to suit your cruising requirements.

The case is constructed from 'zintec' plate which is then plastic-coated to protect it against the elements. All models are equipped with condensate collection drip tray, and are fully thermostatically controlled.

These fridges also feature interchangeable door hinges and front panels to suit a variety of installations.

Copper pipe, (98,42 in) in length.

Frigoboats exclusive self sealing couplings allow the precharged system to be easily retro fitted.

REFRIGERATED CABINET - **80 LITRES**  
L. 18,5 in - P. 16,81 in - H 23,62 in
