12-240V Campervan Fridges

VITRIFRIGO
COOL AND BEYOND

Available in grey or black, the widest range of superefficient, thermostatically controlled 12/24V DC compressor fridges.

All Vitrifrigo fridges are easily upgraded to run from 240V.

Select the best fridge for your space and don't compromise on your conversion.

From super slim, tall units to shorter wider options, many with remote or demountable compressors, Vitrifrigo cover all requirements.

Some models are also available as larger fridges, (without ice box) - please contact us for more details.

C62i - Deeper wider fridge with compressor at top	62	530	450	517	559	18	0.6 Ah

* UK summer time 20°C ambient - **Optional fitting frames**
See vitrifrigo.co.uk for full details

Frame flange width 25 mm. Please add 14 mm. to the width and 3 mm. to the height of the opening/aperture if using a fitting frame

12-240V Motorhome Fridges

VITRIFRIGO
COOL AND BEYOND

For larger van conversions through to equestrian and coach built motorhomes, Vitrifrigo have fridges and fridge freezers to suit. No need to compromise - select the best fridge for your space.

Available in grey, black or stainless steel, from slim, tall to short, deep options, many with the choice of remote or demountable compressors. Motorhome fridges all feature a generous sized freezer compartment, which is '3 star rated'. Also several options of larger fridges (no ice box) - please contact us for more details.

All Vitrifrigo fridges are easily upgradeable to run from 240V.

12-240V Portables

VITRIFRIGO
COOL AND BEYOND

VFREE
by Vitrifrigo

Options from 15 to 65 litres, well insulated, with digital temperature control, able to run as fridge or freezer (min temp -22 °C*), the **VFree range** are robust and built to last, ideal for campervans and motorhomes requiring flexible fridge or freezer storage. Set them up as an awning fridge, or use them for additional freezer capacity when touring. VFree portables are powerful and efficient, able to run from 12V or 24V DC automatically switching to 240V AC when available.

12-240V Freezers

BEST FOR POWER CONSUMPTION

TYPICAL POWER CONSUMPTION

*Figures based on readings taken during UK summer with no restocking of fridge.

For full details on power consumption, please visit our website www.penguinfrigo.co.uk

RUN FROM SOLAR 24/7

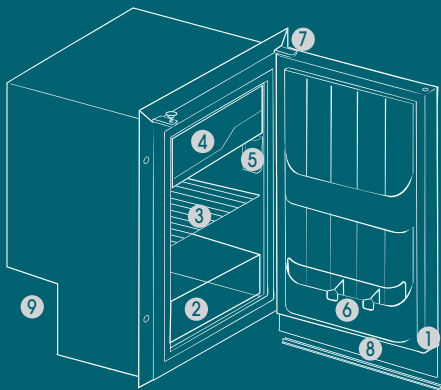

In our tests a Vitrifrigo C62i fridge ran constantly for over a month from just the power of a 55W solar panel charging the battery. Work on a minimum ratio of 1 watt per litre volume for glass photovoltaic panels (additional capacity may be required for flexible panels).
